The warbands have heard rumors of a tomb in the area with treasure. Each warband is trying to find it first and make it back out of the tomb alive.

## Terrain

Use tiles to show the tomb. Place the Burial chamber in the center of the table and an entrance room one of the corners of the table. If more than two warbands are playing place as many entrance tiles as needed at the corners.

## Setup

Roll to see who starts. Highest roll chooses starting tile.

## Special Rules

Each warband is trying to get to the center chamber to get the treasure chest. Once there they must carry it out of the tomb and live. A figure must be in contact with the treasure chest for 1 turn to pick it up. Once carrying it you may move at half speed. If two people carry the chest they may move at normal speed. The other warband may stop them from escaping and take the chest for themselves. If you rout while carrying the chest you lose it.

## Starting the Game

Roll to see who goes first. Highest roll starts.

## Ending the Game

If a warband fails a rout test the game ends. If a warband takes the treasure chest and escapes they win.

## Experience

+1 Survives: If a Hero or Henchman group survives the battle they gain +1 Experience.

+1 Winning Leader: The leader of the winning warband gains +1 Experience.

+1 Per Enemy Out Of Action: Any Hero earns +1 experience for each enemy he puts Out Of Action.
